

Talent Development And Research Hub

Here is where your
presentation begins

let's IMAGINE

- A chef that has the recipe but can't cook
- A driver that has licence but can't drive

And,

- A teacher that has the knowledge but can't teach

The background is a solid teal color. It features several large, semi-circular yellow shapes at the top, bottom, and left edges. In the upper right, a dark blue paper airplane is shown flying towards the right, with a dashed line indicating its path. On the left side, a yellow circle contains three white plus signs and two white circles. At the bottom left, there is a 4x5 grid of small dots, with the top two rows being white and the bottom two rows being yellow.

**DON'T STOP
IMAGINING ..**

**Let's
Listen to a
STORY !**

STORY

This is **MOHAMMED**

- Student studying CS in a university.
- Mohammed is in his 9th semester
- Mohammed is passionate about his courses !

STORY

MOHAMMED

Mohammed is studying :

- The network layers. He knows the difference between a UDP and TCP
- Has the knowledge of all the java language syntaxes.
- Knows the data structures and the data types with it's differences.

STORY

MOHAMMED

Mohammed is about to graduate, but you what !?

- Mohammed only KNOWS these concepts.
- He lacks the actual usage of these concepts.
- The whole journey of mohammed's ended with him stuck without knowing how to implement nor how to extract further knowledge onward.

Before we end the STORY, let's get back to the imagining phase :

→ The **chef** knows everything except him actually cooking. The transition of the knowledge of the recipe to him making the cook is his weakness.

→ The **driver** got his license and has all the knowledge needed on the theoretical part. The diver lacks the skill that makes his actually DRIVE.

→ The **teacher** has the actual knowledge of the subject / topic he's addressing. But the crucial past here, that the teacher lacks the delivery part and lacks the tutoring part.

Last but not least, let's now get the correlation of the imagining part to Mohammed's case :

Mohammed lacked the following :

Knowledge of practicality

Not to work practically, but to actually get to know how to implement

Academic self - analysis

To take whatever knowledge he gains and tries to build onward to become more advances and capable in such topics.

The support of practical opportunities

Get's full support to take his valuable theoretical knowledge and feed that through opportunities that help the usage of it.

Let's now get to the topic ,

and find solutions that we can
help Mohammed at...

The Plan

Theoretical != Graduation
Theoretical + Practical = Graduation

AGENDA

1.

Project Schedule

Here you could describe the topic of the section

2.

Project Timeline

Here you could describe the topic of the section

3.

Status Report

Here you could describe the topic of the section

ABOUT THE PROJECT

Mercury is the closest planet to the Sun and the smallest one in the Solar System—it's only a bit larger than the Moon

OBJECTIVES

MARS

Despite being red,
Mars is actually a cold
place

JUPITER

Jupiter is the biggest
planet in the Solar
System

VENUS

Venus has a beautiful
name, but it's terribly
hot

ABOUT THE PROJECT

MARS

Despite being red,
Mars is a cold
place

JUPITER

Jupiter is a gas
giant and the
biggest one

NEPTUNE

Neptune is the
farthest planet
from the Sun

SATURN

Saturn is
composed mostly
of hydrogen

PROJECT PROPOSAL

MERCURY

Mercury is the closest planet to the Sun

JUPITER

Jupiter is a gas giant and the biggest planet

VENUS

Venus has a beautiful name

MARS

Despite being red, Mars is a cold place

SATURN

Saturn is composed mostly of hydrogen

NEPTUNE

Neptune is the farthest planet from the Sun

“

**This is a quote. Words full of
wisdom that someone
important said and can make
the reader get inspired**

-SOMEONE FAMOUS

PROJECT SCHEDULE

OUR GOALS

SHORT TERM

VENUS

Venus has a beautiful name, but it's hot

NEPTUNE

Neptune is the farthest planet from the Sun

MARS

Despite being red, Mars is actually a cold place

JUPITER

It's the biggest planet in the Solar System

LONG TERM

CHECKLIST

	OPTION A	OPTION B	OPTION C	OPTION D
Task 1	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Task 2	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Task 3	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Task 4	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Our data

40%

Engineer

Saturn is a gas giant and has several rings

35%

Consultant

Venus is the second planet from the Sun

25%

Designer

Despite being red, Mars is a cold place

OUR NUMBERS

50%
MARS

Despite being red,
Mars is a cold place

25%
VENUS

Venus has a
beautiful name

35%
JUPITER

Jupiter is a gas giant
and the biggest one

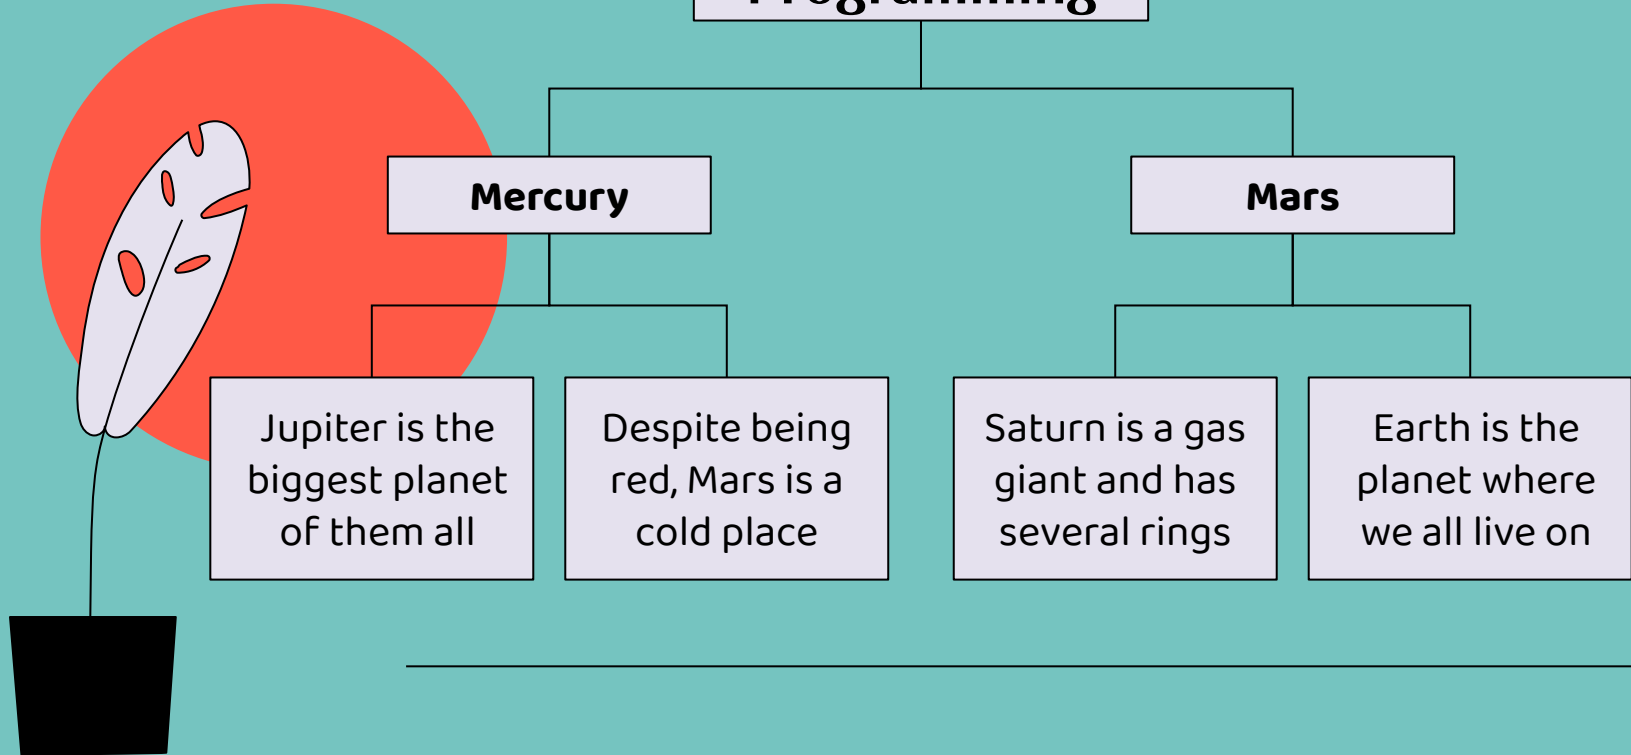

65%
NEPTUNE

Neptune is the
farthest planet

STATUS REPORT

SCHEDULE	●	●	●	The project schedule is on track
RESOURCING	●	●	●	Resourcing is adequate
BUDGET	●	●	●	Project is within budget
RISKS	●	●	●	All project risks are under control
ISSUES	●	●	●	Project issues need to be solved
BENEFITS	●	●	●	Project benefits do not meet the expectations

Diagram

RAID SUMMARY

RISK

Despite being red, Mars is a cold place

ASSUMPTIONS

Mercury is the closest planet to the Sun

ISSUES

Venus has a beautiful name, but it's terribly hot

DEPENDENCIES

Jupiter is the biggest planet in the Solar System

WHERE WE ARE

Venus has a beautiful name, but
it's very hot

WHERE WE WANT TO BE

Mercury is the closest planet to
the Sun and the smallest one

Universities

Columbia

Neptune is the
farthest from the Sun

Stanford

Jupiter is the biggest
planet of them all

BUDGET

Period 1 y Period

If you want to modify this graph, click on it, follow the link, change the data and replace it

MARS

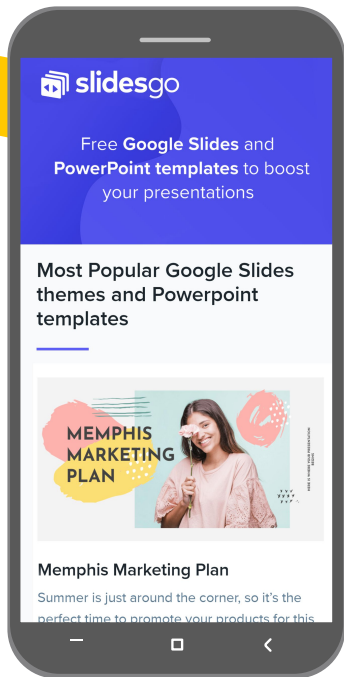

Despite being red, Mars is a cold place

VENUS

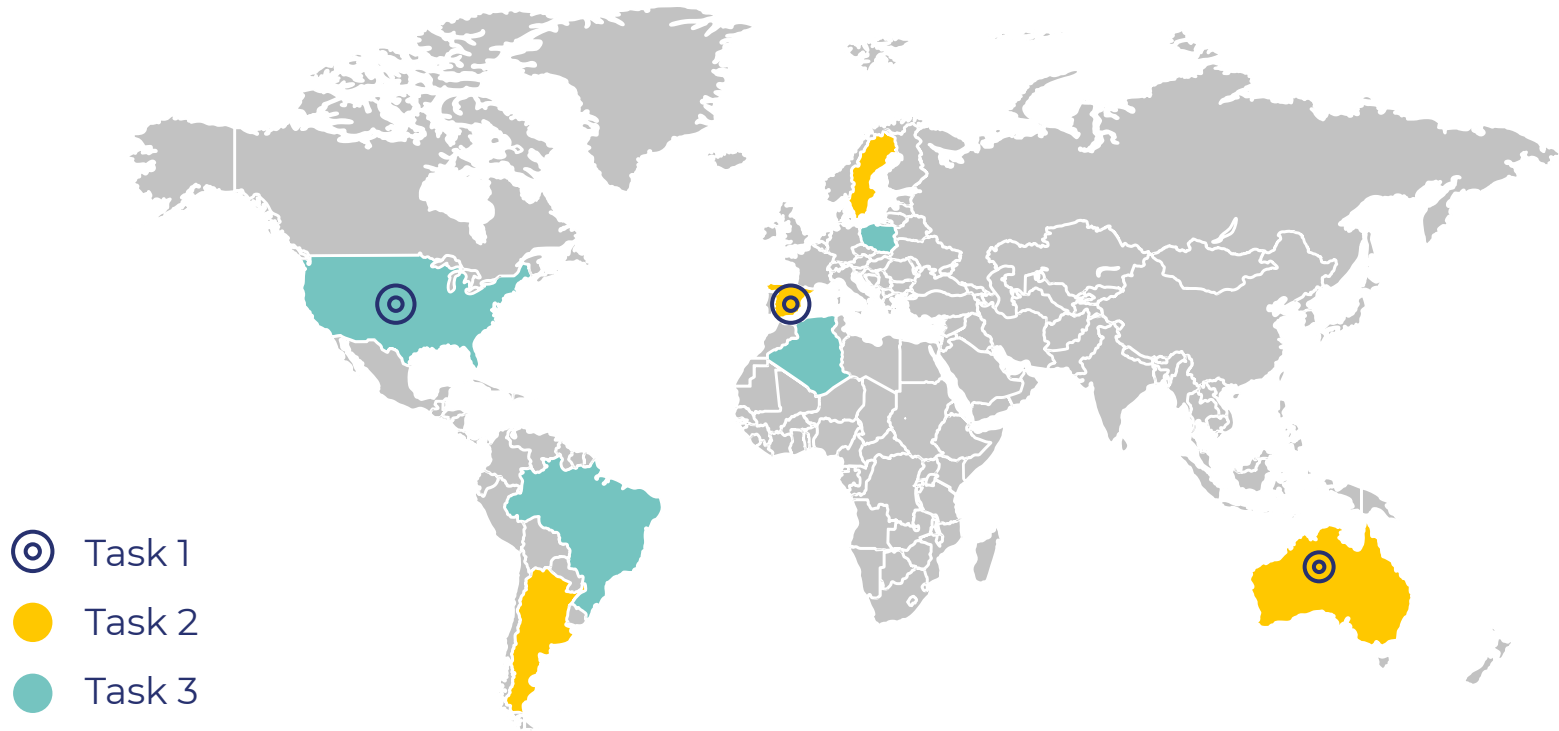

Venus has a beautiful name

SNEAK PEEK

Neptune is the farthest planet in the Solar System. It's the fourth-largest by diameter and the densest
